

TWO HURT. CHANCE

Freight Backed In- to Street Car.

Accident at Exchange St. Crossing.

Miss C. C. Caulk, 103 Washington st., and John Haberkorn, 103 Hopp st., were cut about the hands and severely bruised and six other passengers on a loop line car were badly shaken up when an Erie freight train backed into the street car on the Exchange st. crossing at 6 o'clock Thursday evening.

An Erie train had been cut at the crossing to allow vehicles and the car to cross and the gates were raised. As the car was going across the track the engine of the freight backed up and the rear freight car struck the street car. The latter was pushed from the rails and shoved for six feet along the planks of the crossing. It did not overturn.

The windows of the car were broken and passengers thrown from their seats. No one was dangerously hurt. The street car was not greatly damaged.

Parks' ambulance removed Miss Caulk to her home.

For Akron to Get New Factory.

Mr. Lewis Silber, of the firm of Silber & Gross, wholesale manufacturers of the Victoria Brand of Ladies' waists and wrappers, of Cleveland, was in Akron, today, making arrangements which will probably result in the establishment of a large factory for the manufacture of the firm's goods in Akron.

Accompanied by Mr. W. T. Tobin, secretary of the M. O'Neil & Company, Mr. Silber spent the greater part of the morning seeking a location for the factory, but their efforts were unsuccessful. A building of two or more stories, with floor of 150x60 or 70 feet, is desired. Any property owner having such a building available, or who would be interested in erecting one to be used by the firm, is asked to communicate with Mr. Tobin.

If quarters can be secured the new firm will open its establishment here within thirty days. The firm is of the highest commercial standing and is engaged in a line of manufacture that will give employment at wages varying from \$6 to \$15 to between 150 and 200 girls and women, with the number increased to 300 later on. Seamstresses living within five or six miles of the city will be able to do work at home.

Cleveland ranks next to New York in the extent of its manufacture of women's wearing apparel, and the fact that Akron offers some advantages which make the location here superior to that of Cleveland is the reason Silber & Gross desire to locate here.

AN UNEQUALLED RECORD.

There is a rapidly increasing volume of Akron Evidence Rolling Up For the Great Medicine, Dr. A. W. Chase's Nerve Pills.

It would seem that hardly any one can take Dr. A. W. Chase's Nerve Pills without receiving marked benefit. The wonderful action of this medicine in putting people on their feet who are in a weak, run down condition is the talk of every place they are known. It is only a short time since they first came to Akron, yet today they are more in evidence for merit with Akron people than all other medicines combined.

Mrs. Sam Bollier of No. 536 Exchange st., Akron, Ohio, says: "Dr. A. W. Chase's Nerve Pills are a fine tonic. I was run down, felt sluggish, dull, listless and nervous. I was told of and got the Nerve Pills at Lamparter's drug store on South Howard st., and they made me feel well and good in short order. I feel bright and strong again and nerves very steady. I think it a great medicine."

Dr. A. W. Chase's Nerve Pills are sold at 50c a box at dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D., are on every package.

A LITTLE STEAMBOAT AND A LONG JOURNEY.

The passage of a small steamboat through the Akron portion of the canal, Thursday, attracted the attention of a large crowd of on-lookers and the presence of ladies on the deck and other signs that the boat had come a long distance added to the interest that was taken.

The boat, which had come down the canal from Cleveland and weighs 15 tons, is the property of Captain Denning of New Orleans, who with his family and two colored servants, left New Orleans last May, and took to the Atlantic ocean to get away from the intense heat of a southern summer.

A trip was made up the Atlantic coast, the boat stopping whenever and wherever it suited the convenience of those on board, and proceeded without accident to the mouth of the St. Lawrence river, and then went up the river into Lake Ontario.

More stops were made along the river and the folks took a trip into Lake Champlain. A stop was also made at Buffalo to visit the Pan-American.

The boat and its passengers next proceeded to Cleveland, where they arrived last Sunday. Capt. Denning

says that the entire summer was spent without accident to the little boat, which only weighs 15 tons and draws but three feet of water.

It took the party all day Thursday to reach here from Cleveland. They will continue their journey down the canal into the Ohio river, then down into the Mississippi and then home, arriving there in about a month. No effort has been made to travel at night and there is no special effort to make speed, so that the trip will continue in the leisurely fashion in which it was started.

A CITY.

(Special Correspondence.)
Barberton, Sept. 27.—(Spl.)—Barberton is now a city. The resolution of its Council was filed in the office of the Secretary of State today.

The primary effect of the change will be the loss of office to all who now hold office in the municipality. They were elected at a township election, and will lose their offices in the spring, whether their terms have expired then or not. At the regular spring election they will have to be re-elected or others will have to be chosen in their places.

This is the end of the crusade that

has been made for advancing to a city's grade for over a year.

For years I suffered from dyspepsia, at times compelling me to stay in bed and causing me untold agony. I am completely cured by Kodol Dyspepsia Cure. In recommending it to friends who suffer from indigestion I always offer to pay for it if it fails. Thus far I have never paid."
